

Postdoctoral Position in Organic Synthesis – Universidad de Granada

A postdoctoral position is available in the Nanographout group under the supervision of Dr. Araceli G. Campaña (www.nanographout.ugr.es)

Research Topic

The selected candidate will incorporate to the ERC-Starting Grant project nº 677023 'NANOGRAPHOUT' working on the design, synthesis and characterization of the properties of distorted nanographene molecules incorporating non-hexagonal ring defects.

Reference: Chemical Science, 2017, 8, 1068.

Conditions

The position is offered for a fixed term of 12 months, starting on 1st October (some flexibility might be possible if required), with the possibility of extension for, at least, additional 12 months or up to the duration of the project. The gross salary is 25,000 eur/year.

Requirements

We seek outstanding candidates with initiative and team-working abilities that could also guide the work of PhD students. PhD in Organic Chemistry and a strong synthetic background are required. Publications record will be considered. Good written and spoken English skills are desirable.

Applications

Applicants must send an e-mail to araceligc@ugr.es indicating POSTDOCTORAL POSITION as subject including: cover letter, brief CV (maximum 3 pages, including list of publications and concise research summary) and the name and e-mail address of two Professors or Researchers that could be contacted to provide references of the candidate. Personal interview might be required.

Deadline

15th June 2017. Applications received after this deadline may be considered until the position is filled.
